Stewards.ONE – Real World Readiness Programme (RWR)

Preparing Young People for the Careers of Tomorrow

Why RWR?

The world is changing fast. AI, green energy, biotechnology, finance, media, and politics are reshaping how we live and work. School grades are important — but **they're not enough**.

Our children need to graduate ready for the **real world** — with the skills, confidence, and character to thrive in careers or business, and to serve their communities.

That's where the **RWR Programme** comes in.

- **Future-proof skills** in high-growth fields.
- **Weekly mentorship** from industry experts.
- **Values-driven learning** that links knowledge to stewardship and impact.
- **Capstone projects/research** so students put learning into action.

How the Programme Works

Mondays, 3:45 PM (UK time)

- All students start together for inspiration.
- Break out into **domain groups** with their specialist mentors.
- Optionally return to the main class to **share ideas across domains**, building energy and aspiration.

Wednesdays, 3:45 PM (UK time)

- Optional add-on: **Business, Management & Politics (BMP)**.
- Everyone together in one class — exploring entrepreneurship, project management, civic leadership, and policy.

25 Weeks Total

- 20 weeks of guided domain learning.
- 4 weeks for projects (14+) or research reports (<14).
- 1 week reserved for a **trip or virtual experience** (parents cover cost).

The RWR Flow

Every week follows our rhythm:

- ✦ **Inspire** – stories, role models, and career case studies spark curiosity.
- 🔧 **Build** – students learn practical skills through guided exercises.
- 🗨️ **Share** – ideas are presented and tested with peers.
- 🌍 **Serve** – reflection on how skills can make a positive difference in the world.

The 6 RWR Domains

| REAL WORLD READINESS | | | | |
|---|--|---------------------------------------|---------------------------|-------------------------------------|
| Information Technology & Digital Innovation | Engineering, Energy & Sustainable Design | Health, Life Sciences & Biotechnology | Data, Finance & Economics | Creative Industries, Media & Design |
| Business, Management & Politics (BMP) | | | | |

| # | Domain | What It Covers | Why It Matters |
|---|--|---|---|
| 1 | Information Technology & Digital Innovation | AI, coding, cybersecurity, blockchain, robotics | Future-defining tools that power industries and protect communities. |
| 2 | Engineering, Energy & Sustainable Design | Civil, chemical, renewable energy, smart infrastructure | Solving energy, climate, and design challenges of the 21st century. |
| 3 | Health, Life Sciences & Biotechnology | Medicine, genetics, digital health, mental health | Careers that improve lives and ensure healthier futures. |
| 4 | Data, Finance & Economics | Data science, fintech, economics, financial literacy | Driving stability, opportunity, and smarter decision-making worldwide. |
| 5 | Creative Industries, Media & Design | Film, Journalism, digital content, cultural storytelling | Shaping culture, inspiring ideas, and amplifying voices. |
| 6 | Business, Management & Politics (BMP) <i>(Optional Add-On)</i> | Entrepreneurship, project management, civic leadership, policy & regulation | Equipping students to lead ventures or shape policies that affect industries and communities. |

Capstone Experience

In the final phase, students demonstrate readiness:

- **14+ years** → Deliver a **real-world project** in their chosen domain.
- **Under 14 years** → Research a challenge and write a **recommendation report**.

Examples:

- Building a prototype app.
- Designing a sustainability plan for local energy use.
- Researching mental health awareness strategies.
- Analysing blockchain for community transparency.
- Planning a cultural storytelling project.

Why Parents Choose RWR

- ✓ **Practical, not abstract** – skills that translate into action.
 - ✓ **Mentorship** – weekly guidance from real industry professionals.
 - ✓ **Cross-domain exposure** – students learn from peers in other fields.
 - ✓ **Confidence + competence** – ready for careers, business, and service.
 - ✓ **Values-driven** – excellence, character, and stewardship at the core.
-

Join RWR 2025/26

Starting September 2025

- 25-week programme
- Mondays: Domain mentoring
- Wednesdays: BMP (optional)
- Capstone projects & reports
- Optional excursions
